JEDDAH – SAUDI ARABIA**

**NOV. 2021 G – RABI' II 1443 H**

# EXECUTIVE SUMMARY

## On Campus Delivery Robot

According to our information gathering, it is apparent that there is a need for an on-campus delivery solution. Which would benefit the administrators in efficiently completing their work and students by reducing time wasted going back and forth between buildings.

The university campus consists of different terrains which might make traversal more challenging for a ground robot. In addition to that, there are moving objects (people, cars) which might necessitate obstacle avoidance.

We want to create a unified and comprehensive delivery network across the KAU campus without human involvement.

Our lower-level objectives are connecting the whole university buildings into a single automated delivery network, improving productivity of employees/students by saving their time, reducing the use of fuel and manpower in the delivery process.

Our higher-level objectives are Pushing to increase development in the tech field industry in Saudi Arabia, raising awareness to decrease the carbon emission, by providing electrical alternatives., encouraging upcoming generations to R&D autonomous solutions.

For the alternative solutions, we started by brainstorming some ideas for possible solutions. We then generated some new alternatives using a morphological chart. We then ruled out some of the alternatives using a KTDA table. After the analysis, the alternatives that passed are the RoboDog, Robot Train and the Ground Robot.

We then compared the pros and cons of each alternative. The chosen solution was the Ground Robot. We picked the ground robot because it had the lowest cost, it is moderately complex, and the parts needed are easily obtained.

We then tried to further improve our baseline design. We made some adjustments, the most substantial one was replacing some of the parts (wheels, motors) with a hoverboard. In addition to that, we added ventilation holes and a hole for cable management.

**Index Terms** — Navigation, obstacle avoidance, delivery robot.

## TEAM ACTIVITY PORTFOLIO CONTENTS

### TEAM MEMBERS

Team-03					
Photograph	Name	Computer Number	Phone Number	Email	Specialization
	Muhannad Saeed Alghamdi	1846525	0555664661	Mhdghd2@gmail.com	Computer Engineering
	Sulaiman Abdullah Abbas	1845862	0504624355	Cursoldsulaiman@gmail.com	Computer Engineering
	Wael Rabah Aldhaheeri	1846987	0506615899	WaAldhaheeri@gmail.com	Biomedical Engineering

## TEAM RULES, ROLES, AND CONTRIBUTIONS

Roles and Contributions			
Role	Technical Role	Name	Responsibility
Team leader/ Project manger	Navigating algorithms	Muhammad Saeed AlGhamdi	Planning and organizing the completion of tasks within the project.
Organizer, Gatekeeper	Obstacle avoidance algorithms	Sulaiman Abdullah Abbas	Organizes team meetings time and place and the meeting outcomes, ensures that all goals are achieved.
Idea Challenger, Recorder	Hardware & code Deployment	Wael Rabah Aldhaheer	Plays the role of the devil's advocate, types the meeting minutes

## PROJECT TASKS AND TIMETABLE

		Task Mode ▾	Task Name ▾	Duration ▾	Start ▾	Finish ▾	Predecessors ▾
1			Component Gathering	14 days	Sun 1/16/22	Wed 2/2/22	
2			Ordering a Jetson Nano	14 days	Sun 1/16/22	Wed 2/2/22	
3			Ordering Stereo camera	14 days	Sun 1/16/22	Wed 2/2/22	
4			Ordering DC-to-DC converter	14 days	Sun 1/16/22	Wed 2/2/22	
5			Ordering Hoverboard	5 days	Sun 1/16/22	Thu 1/20/22	
6			Cart	12 days	Fri 1/21/22	Mon 2/7/22	
7			Building the cart	10 days	Fri 1/21/22	Thu 2/3/22	5
8			Cart adjustments	2 days	Fri 2/4/22	Mon 2/7/22	7
9			Required studying	10 days	Sun 1/16/22	Thu 1/27/22	
10			MATLAB Revision	1 day	Sun 1/16/22	Sun 1/16/22	
11			Learning Simulink	2 days	Sun 1/16/22	Mon 1/17/22	
12			Learning ROS	10 days	Sun 1/16/22	Thu 1/27/22	
13			Software	21 days	Fri 1/28/22	Fri 2/25/22	
14			Navigation algorithms	21 days	Fri 1/28/22	Fri 2/25/22	9
15			Obstacle avoidance	21 days	Fri 1/28/22	Fri 2/25/22	9
16			Final Phase	35 days	Mon 2/28/22	Fri 4/15/22	
17			Hardware implementation	14 days	Mon 2/28/22	Thu 3/17/22	13,5
18			Testing & Troubleshooting	21 days	Mon 2/28/22	Mon 3/28/22	13
19			Finishing Term 2 report	14 days	Tue 3/29/22	Fri 4/15/22	18

## DESIGN NOTES AND DRAFTS

Figure 4 - Cart Sketch

Figure 3 - Navigation handwritten notes

Figure 5 - Project scope notes

# MEETING MINUTES

## Meeting #1

**Meeting Time:** 31 August, Tuesday at 9:30 PM

---

### Meeting's Agenda:

- Introduce the team and get to know each other
- Briefly discuss the problem
- Briefly discuss the ability to solve the problem within the time

### Meeting Outcomes:

- Get to know the teammates and the advisor
  - Formed the basic understanding of the problem
  - The need of a detailed discussion within the next week
- 

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #2

**Meeting Time:** 8 September, Wednesday at 9:30 PM

---

### Meeting's Agenda:

- Detailed discussion about the problem
- Discuss the expectations during both semesters

### Meeting Outcomes:

- A clearer understanding of the problem
- Cleared the expectations during the two semesters

**Meeting minutes: 60 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #3

**Meeting Time:** 16 September, Thursday at 8:00 PM

---

### Meeting's Agenda:

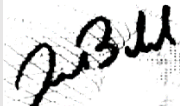

- Discuss the exact project objectives
- Discuss the scope and what to turn in by the end of it
- Discuss the scope of the project

### Meeting Outcomes:

- Discussed the objectives
- Discussed and agreed on the some listed wants and musts
- Discussed the scope

**Meeting minutes: 60 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #4

**Meeting Time:** 21 September, Thursday at 1:00 PM

---

### Meeting's Agenda:

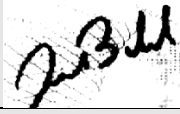

- Discuss some standards related to the project
- view some literatures related to the project and discuss them

### Meeting Outcomes:

- formed a good knowledge basis required to

**Meeting minutes: 45 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #5

**Meeting Time:** 19 September, Sunday at 5:00 PM

---

### Meeting's Agenda:

- Discuss few points related to the assumptions
- Discuss the team members roles

### Meeting Outcomes:

- Cleared the points in assumptions
- Agreed on the team members roles

**Meeting minutes: 50 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #6

**Meeting Time:** 26 September, Sunday at 7:00 PM

---

### Meeting's Agenda:

- Discuss the milestones
- Discuss some related resources for the project

### Meeting Outcomes:

- Agreed on the discussed milestones for both term one and two
- Viewed some related resources in the project topic

**Meeting minutes: 45 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #7

**Meeting Time:** 3 November, Wednesday at 8:00 PM

---

### Meeting's Agenda:

- Discuss the initial alternatives
- Discuss the related block diagrams

### Meeting Outcomes:

- Rejected few alternatives and accept the others
- Modified the related block diagrams

**Meeting minutes: 60 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #8

**Meeting Time:** 7 November, Sunday at 8:00 PM

---

### Meeting's Agenda:

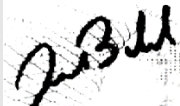

- Discuss the selected alternative
- Discuss the baseline design
- Mature the design

### Meeting Outcomes:

- Agreed on the selected alternative
- Improved the initial design

**Meeting minutes: 50 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #9

**Meeting Time:** 9 November, Tuesday at 1:00 PM

---

### Meeting's Agenda:

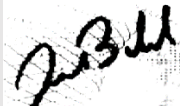

- Discuss the required hardware
- Discuss some adjustment on the baseline design

### Meeting Outcomes:

- Listed the main hardware components
- Changed the sketched design of the platform

**Meeting minutes: 45 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri	

## Meeting #10

**Meeting Time:** 12 November, Thursday at 1:00 PM

---

### Meeting's Agenda:

- Discuss the initial implementation
- Discuss the electrical & mechanical specifications

### Meeting Outcomes:

- Agreed on the final version of the mechanical specification
- Added some parts to the hardware list

**Meeting minutes: 50 mins**

---

Name	Signature
Dr. Muhammad Bilal	
Muhannad Saeed	
Suliman Abbas	
Wael Aldhaheeri
